

KYRAN ALDWORTH

MULTIMEDIA DESIGNER

ABOUT ME

I'm a passionate photographer, filmmaker, and digital designer, who has a deep passion for visuals, technology, and learning. I was first bitten by the content creation bug when I picked up a camera during school, and since then I have used it on a daily basis. When working I thrive on creative thinking and looking for solutions outside the box but most importantly I love to challenge, provoke and disrupt the world around me. When I'm not thinking up crazy ideas and working on personal projects, I love to get outdoors to explore and to get sketchy riding down dusty tracks on my bike or trying an elaborate plan to capture content with my friends.
